Allowable Subject Matter

1. Claims 1-6 are allowed.

The following is an examiner's statement of reason for allowance:

The present invention is directed to a method and system for reprogramming instructions or routing parameters for a switch. The independent claim 1 identifies an uniquely distinct feature "decompressing said compressed data portion of said SNMP packet by said predetermined compression algorithm to carry out a predetermined processing on the SNMP packet". And independent claim 4 identifies a unique feature of "said compression/decompression processing section compressing said packet with said compression indicating bit being set on said bit position, wherein said predetermined compression algorithm is applicable to said management object device as said transmission destination".

2. The closest prior art, Sethi (U.S. 6,704,780) discloses a systems and methods for efficient storage of network management and Champlin et al. (U.S. 6,519,635) discloses a SNMP master agent that translates messages to a sub-agent proprietary format using a translation table by the sub agent, whether taken alone or in combination fails to anticipate or render the above underline.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reason for Allowance."

Art Unit: 2143
